

Professional Series Ventilation Liner

PROFESSIONAL SERIES

VENTILATION LINERS

are manufactured to ventilate today's demanding residential commercial ranges. All PSL liners include your choice of centrifugal blower motors ranging from 600cfm to 1200cfm internally. The PSL liner can also be ordered without a blower motor installed to be used with an inline 1266cfm fan or an exterior 1400cfm roof or wall mounted blower unit. Infinite speed control provides total control over your ventilation needs. Bright Beautiful halogen lighting for full cooktop illumination is standard on the PSL liner. All lighting needs are controlled by a solid state dimmer switch. You control the amount of lighting you need, from full bright to a safety light at night. Team the PSL liner up with one of our high performance power packages and you have the ultimate insert liner, guaranteed!!
